

PRD2334USCNT6

Remarks

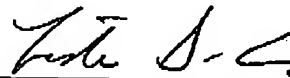

Once again, only the corrected section of the non-compliant amendment has been re-submitted in its entirety. The foregoing section of Amendments to the Specification therefore supersedes the corresponding section included in the original response to the Office Action dated September 22, 2005 as well as the corresponding sections submitted previously that attempted to correct the inadvertent clerical errors made in marking all changes. The undersigned appreciates the Examiner's assistance in detecting all of the apparent transcriptional errors, which, as reflected by the Examiner's comments in the outstanding communication, is not an easy task given the volume of specification text impacted by the amendments.

Respectfully submitted,

Katharine E. McElhone, Reg. No. 57,462  
Agent for Applicant

Date: November 21, 2006

Linda S. Evans, Reg. No. 33,873
